

MIDDLE OF NOWHERE
HUNTING RULES AND PROCEDURES

Undersigned hereby agrees that as hunters we must police ourselves. To ensure a safe hunting environment for all participants, and for the proper management of all wildlife, Undersigned hereby acknowledges that he/she has read and understands the Middle of Nowhere Hunting Rules and Procedures (hereinafter referred to as "Hunting Rules and Procedures"), and agrees that he/she will, at all times, abide by said Hunting Rules and Procedures as outlined below:

1. Hunting is for the approved wildlife species that corresponds with the approved Missouri hunting season only (i.e. deer during deer season, turkey during turkey season). No one shall kill, maim, pursue, track, shoot or trap any form of wildlife other than the approved species during approved Missouri hunting seasons.
2. Lawful game will be taken from approved and designated commercially procured elevated platforms (hereinafter referred to as "Stands") and blinds only. There will be no "Road Hunting" or taking of game from any location, other than approved and designated Stands and blinds.
3. The discharge of firearm or archery equipment (to include airguns) will be in the pursuit of lawful game only. Target practice of any form is not permitted in any area other than the firearm and archery ranges specifically designed for such use.
4. Hunting for illegal wildlife is strictly prohibited. No one shall kill, maim, pursue, track, shoot or trap any form of illegal wildlife (i.e. a buck during doe season, a hen during Turkey season, a rabbit during deer season, an Eagle at any time), or wildlife not in accordance with Missouri or Federal hunting statutes.
5. Firearms will remain unloaded / arrows will remain un-nocked, at all times while on the Premises, except when at a designated Stand or blind. Firearms will be loaded / arrows will be nocked, only after the Undersigned has safely entered a designated Stand or blind, and the manufacturer's safety harness outfitted on each Stand is attached.
6. Discharge of firearm or archery equipment in an area other than a designated Stand or blind will be acceptable only if, and when, the use of deadly force is deemed necessary to protect the Undersigned or others in such an event as, but not limited to, defending against an attacking animal.

Undersigned acknowledges that if he/she is found to engage in any unsafe hunting practice, including but not limited to the items listed above, Undersigned understands and agrees that he/she will be requested to immediately depart the Premises, will forfeit any and all funds previously paid, and will be banned "for life" from participating in any activities aboard any property operated by Middle of Nowhere. Furthermore, Undersigned acknowledges and understands that, when applicable, the proper authorities will be notified.
